## **Exhibit A: About the Islamic Supply Chain Stakeholders Model in Malaysia**

This model functions as the schematic flow of *halal* supply chain stakeholders in Malaysia is to enhance the activities from the point of Suppliers (*Halal* Livestocks), Manufacturers (*Halal* Food and Beverages or F&B industry) and Third Party Logistics Service Providers (3PL) (*Halal* dedicated to transportations, cargoes/containers, warehouses etc.) to the point of *Halal* Certification and thus Proceed for Distributions of Products and Services. The *Halal* Park will act as Centre of *Halal* Infrastructure for Excellence and *Halal* Development Corporation (HDC) coordinates the *halal* industry development. The framework represents the interactions (referring to the interactions arrows) between HDC and associated *halal* agencies/authorities such as Department of Veterinary (Livestock supplies and Welfare), *Jabatan Kemajuan Islam Malaysia* (JAKIM) (*Shariah* Compliance Procedures), and Standards Malaysia (Standard requirements for *Halal* Products and Logistics Services). Ultimately, JAKIM will issue *Halal* Certification to all products and services. Upon obtaining the *halal* certification the manufacturers and suppliers will proceed for distribution (if YES) for their products and services. If the application is rejected (if NO) by JAKIM, the *halal* certification will go through the whole process again. This schematic flow will contribute to the understanding of the whole and complete model for Islamic Supply Chain Stakeholders in Malaysia. It comprehends the *halal* business especially in F&B Industry to acquire *Halal* Certification thus compliment the newly proposed Islamic Supply Chain Model. The model is shown in Exhibit B.
